

Semester 2 Year 8 Creative Arts Academy- The Choice (Dance)

Achievement Standard:

By the end of Year 8, students **identify** and analyse the **elements of dance**, choreographic devices and production elements in dances in different styles and **apply this knowledge in dances they** make and **perform**. They evaluate how they and others from different cultures, times and places communicate meaning and intent through dance.

Students choreograph dances, demonstrating selection and organisation of the elements of dance, choreographic devices and form to communicate choreographic intent. They **choreograph** and **learn dances, and perform them with confidence and clarity, and with technical and expressive skills appropriate to the dance style**.

Unit Specific Information

Big picture learning goals:

- Manipulate the elements of dance to present a contemporary/jazz performance
- Use appropriate dance skills to communicate choreographic intent and meaning for audiences
- Experiment with different elements of dance to develop meaning in the choreographic intent
- Utilise the skills of creating dance movement to communicate an idea from a written stimulus then manipulate them and stylistic

You will participate in different technique workshops learning to identify the elements of dance, apply safe dance practice strategies, extend technical competence specific to contemporary and jazz technique. You will practise and refine technical skills in the contemporary, jazz and funk style/genre and apply this knowledge in a class performance. You will learn dances, and perform them with confidence and clarity, focusing on technical and expressive skills appropriate to the jazz and funk style and to communicate a choreographer's intent. You will also manipulate contemporary dance movements and investigate dance concepts to create a contemporary dance which communicates meaning through the use of these concepts.

<ul style="list-style-type: none"> Extending technical competence as control, coordination, accuracy, alignment, balance, flexibility, strength, endurance and articulation when moving, in response to self, peer and/or teacher feedback Applying safe dance practice strategies in consideration of their own body's and others' capabilities when performing a specific dance style, for example, identifying the musculoskeletal system and linking to alignment 	<ul style="list-style-type: none"> Demonstrate knowledge and understanding of the importance, purpose and functions of warm-up and cool-down processes to develop technical skills. Demonstrate knowledge and understanding of how strength, flexibility, coordination, endurance and skill inform dance practice
Rehearse and perform focusing on expressive skills appropriate to style and/or choreographic intent (ACADAM017)	
<ul style="list-style-type: none"> Identifying and demonstrating distinct stylistic characteristics of dance, for example, body posture and attitude within various styles such as contemporary and hip hop (including Asian examples) Using evaluation and rehearsal strategies to enhance confidence, clarity of movement, projection, focus and musicality in performance Linking the application of the elements of dance to the communication of the choreographer's intent in teacher-set dances 	<ul style="list-style-type: none"> Demonstrate knowledge and understanding of how to develop, refine and extend dance skills Demonstrate knowledge and understanding of how to develop and refine expressive skills Manipulate the elements of dance to present a contemporary/jazz performance Use appropriate dance skills to communicate choreographic intent and meaning for audiences
Combine elements of dance and improvise by making literal movements into abstract movements (ACADAM013)	
<ul style="list-style-type: none"> Experimenting with realistic movements, that is everyday movement, for example, exaggerating the movement of a single body part such as the arm in brushing hair or eating spaghetti, and blurring this into abstract movements, and responding to each other's movement ideas Analysing dances from a range of times and locations, and considering how a single realistic movement can be manipulated from representational to symbolic Using the elements of dance to develop new movements that still maintain the essence of the original movement 	<ul style="list-style-type: none"> Demonstrate knowledge and understanding of movement vocabulary through the elements of dance (eg. Everyday movement into abstract) Explore how choreographers use the elements of dance in different dance styles Investigate how elements of dance are utilised by artists within choreography
