In 2022, Kirwan State High School is adopting a Blended Learning Model, which will see students engage in both virtual and classroom learning environments. To support the transition to this exciting model of learning, Kirwan High is committed to ensuring that all students in Years 7, 8, 11 and 12 have their own laptop that they use for learning at school and at home.

The school is aware that many parents may have purchased laptops during the COVID-19 'learning at home' phase and is encouraging parents to strongly consider the BYOx program. For those parents who are unable to purchase a laptop for their child, an affordable laptop loan scheme is provided as an option.

Please select one of the following options below for 2022 and return this form to the student counter as soon as possible.
