

CPC20220 Certificate II in Construction Pathways

Qualification description

This qualification provides a pathway to the primary trades in the construction industry with the exception of plumbing. Trade outcomes are predominantly achieved through an Australian Apprenticeship and this qualification allows for inclusion of skills suited for entry to off-site occupations, such as joinery as well as carpentry, bricklaying and other occupations in general construction.

Refer to training.gov.au for specific information about the qualification.

Entry requirements

There are no entry requirements for this qualification.

Duration and location

This is a one year course delivered in Years 11 and 12 on site at Kirwan State High School.

Course units

To attain a CPC20220 – Certificate II in Construction Pathways, 10 units of competency must be achieved:

Unit code	Title
CPCCOM1012	Work effectively and sustainably in the construction industry
CPCCOM1013	Plan and organise work
CPCCOM1015	Carry out measurements and calculations
CPCCVE1011	Undertake a basic construction project
CPCCWHS2001	Apply WHS requirements, policies and procedures in the construction industry
CPCCCA2002	Use carpentry tool and equipment
CPCCCA2011	Handle carpentry materials
CPCCCM2004	Handle construction materials
CPCCWF2002	Use wall and floor tiling tools and equipment
CPCCWP2001	Handle waterproofing materials and equipment

RTO obligation

The RTO guarantees that the student will be provided with every opportunity to complete the qualification. We do not guarantee employment upon completion of this qualification.

Students who are deemed competent in all 10 units of competency will be awarded a Qualification and a Record of Results.

Students who achieve at least one unit of competency (but not the full qualification) will receive a Statement of Attainment.

Delivery modes

A range of delivery modes will be used during the teaching and learning of this qualification. These include:

- face-to-face instruction
- guided learning

Fees

All fees are published on Kirwan State High Schools VET subject selection form.

Assessment

Assessment is competency based and completed in a simulated engineering environment.

Units of competency are clustered through projects and assessed in this way to replicate what occurs in a engineering workshop as closely as possible.

Assessment techniques include:

- observation
- folios of work
- projects
- written and practical tasks.

Work placement

Students are provided with the opportunity to do structured workplace learning in a range of mechanical workshops

Pathways

This qualification may articulate into: This qualification delivers broad-based underpinning skills and knowledge in a range of construction tasks which will enhance the graduates' entry-level employment prospects for apprenticeships, traineeships or general employment in a construction-related workplace.
